

NEW

TORPEDO PM TAPS
HIGH STRENGTH. HIGH PERFORMANCE.

ITM Torpedo PM Taps

NOW WITH :

- ▶ Premium Grade HSS Steel
- ▶ Higher Cutting Speed
- ▶ Better Productivity
- ▶ Higher Wear Resistance
- ▶ Extra Tool Life
- ▶ Guaranteed Results

TORPEDO Series of products are result of extensive study and continuous efforts put in by our Research and Development team, which has resulted in Superior Quality products which are better than every product in it's category.

TORPEDO – PM TAPS

After the successful launch of Panther Taps, **Indian Tool Manufacturers (ITM)** – A division of **Birla Precision Technologies Ltd.**, are proud to announce the launch of “**Torpedo-PM Taps**”, a new series of superior quality taps.

Torpedo Taps are made of premium quality **HSS Powder Metallurgy (PM) Materials**. ITM Torpedo Taps produce precise quality of threads and improved productivity. The range covers Through Coolant Taps, SPPT Taps, Spiral Taps, St. Flute Taps and Roll Form Taps.

Through Coolant Taps

- Best suitable for Hard and Tough material
- Operate with High cutting parameters.
- Better chip evacuation.

Spiral Point Taps (Size Range M3-M16)

- Best suitable for through hole applications
- Spiral point will work as a chip breaker
- Higher productivity

Spiral Flute Taps (Size Range M3-M16)

- Best suitable for blind hole applications
- Special design to eliminate chip clogging
- Accurate thread finish

Roll Form Taps (Size Range M3-M16)

- Stronger threads
- Better finish
- Higher productivity
- Best suitable for soft materials

St. Flute Taps (Size Range M3-M16)

- Suitable for cast iron applications
- Special geometry to suit both blind and through holes applications
